

AGA KHAN MUSEUM

# AGA KHAN MUSEUM SCHOOL PROGRAMS

Our school programs are offered onsite,  
virtually and pre-recorded.

# EARLY LEARNING (AGES 2–5)

## Telling Stories (one hour)

Students will enjoy stories inspired by the Museum Collections, visit the galleries, and create their own masterpieces based on the stories they have explored.

# PRIMARY (GRADES K–3)

## Pattern Play

One-hour Gallery tour: students will examine various patterns and motifs found within the Muslim world through the Museum Collections.

One-hour workshop: students will create and design their own clay tiles inspired by the Museum Collections.

## Calligraphy

One-hour Gallery tour: students will explore the ways in which the Islamic world uses beautiful writing to communicate and decorate surfaces.

One-hour workshop: students will use pencils and colouring materials to create their own calligraphy inspired by the Museum Collections.

# ELEMENTARY (GRADES 4–8)

## Pattern Play

One-hour Gallery tour: students will examine various patterns and motifs found within the Muslim world through the Museum Collections.

One-hour Workshop: students will create and design their own clay tiles inspired by the Museum Collections.

## Silk Route Adventures

One-hour Gallery tour: students will examine objects that travelled on or were inspired by goods found along the Silk Route as they learn about the role that trade plays in cross-cultural connections.

One-hour workshop: students will explore how luxury goods, languages, resources, and cultures were shared and traded in the ancient world. They will have the opportunity to play the Museum's custom-made board game, which simulates life along the silk road.

## Miniature Painting

One-hour Gallery tour: students will learn about miniature paintings found in the Museum Collections.

One-hour workshop: students will experiment with traditional Mughal miniature painting techniques as they create their own paintings inspired by objects in the Museum Collections.

# HIGH SCHOOL (GRADES 9–12)

## **Geometric Pattern**

One-hour Gallery tour: this tour will focus on the geometric patterns and designs found within the Museum Collections.

One-hour workshop: students will learn how to read geometric designs before creating two of their own using a compass, ruler, and pencil.

## **Silk Routes Adventures**

One-hour Gallery tour: students will examine objects that travelled on or were inspired by goods found along the Silk Route as they learn about the role that trade plays in cross-cultural connections.

One-hour workshop: students will barter and trade with one another in a simulation activity that will provide them with a deeper understanding of the Silk Routes.

## **The Chemistry of Pigment**

One-hour Gallery tour: students will take part in a tour highlighting scientific achievements and innovations.

One-hour Workshop: students will create their own natural pigments from a variety of materials while learning about how artists applied the scientific method to create their own paints.

# HIGH SCHOOL (GRADES 9–12)

## **World of Fashion**

One-hour Gallery tour: this tour of our Museum Collections Gallery will explore a variety of artifacts, from luxury items to textiles, highlighting cross-cultural exchange, trade along the Silk Route, and the impact that geography had on design.

One-hour workshop: students will design a lavish garment for a historical ruler in a friendly competition where they must navigate materials, the taste of their assigned ruler, and their budgets to create something truly fit for the royal court.
