

## AGA KHAN MUSEUM

### **Summer Camp 2020 - *Our Sanctuary***

**Ages 6-8 with Lisa Schulte**

- Monday Welcome to summer camp at the Aga Khan Museum! We are so glad to see you! Today we will begin by getting to know each other and the museum. We will also start our exploration into the theme of Sanctuary. What does it mean? What does it look like for you? Are you ready to get your hands dirty? For our first art project we will be playing with some clay.
- Tuesday I spy with my little eye...some truly beautiful things. Today we are going to explore the museum and the park through the camera lens. How many ways are there to see an object do you think? In the galleries, we will give special attention to the Museum's temporary exhibition *Sanctuary*.
- Wednesday Don't stop the beat! Today we get the chance to get our groove on in a music workshop. When we are not clapping our hands and stomping our feet we will explore the idea of the Earth as a sanctuary. Keep your eyes sharp for an animal scavenger hunt!
- Thursday "*Today you are You. That is truer than true. There is no one alive who is Youer than You.*"<sup>1</sup> Today we are going to explore personal identity. We will investigate what make each of us special and unique by examining stories and storytelling, and creating art with words.
- Friday Today, on our last day together, we are going to focus on what makes museums special. What are they for? You will also get the chance to curate a mini exhibition using your very own art! It's the hottest ticket in town!

\*\* Please note that this outline is subject to change due to inspiration and circumstance. \*\*
