

BE A HISTORY DETECTIVE!

When people try to solve mysteries about the past, they gather clues to figure out what things would have been like – kind of like a detective would! The image below comes from a set of tiles, but we only have two of the pieces. Using clues contained in the image below, can you complete the picture by drawing what you think the rest of the scene looks like?

Tiles are geometric baked clay pieces that were used to decorate walls, floors, and even ceilings. These tiles were made in Iran in about the 17th century. Where can you see tiles around you today?

Share your completed tiles with us @agakhanmuseum to be featured on our social media page! Send us pictures of your tiles in your home, too! #agakhanmuseum
